Hon. Assistant Commissioner for Patents

**LETTER
AND
REQUEST FOR DECLARATION OF INTERFERENCE**

Sir:

This is a reissue application based on U.S. Patent No. 4,849,432. A reissue application is already pending as Serial No. 08/254,202. The examiner has issued a restriction requirement in the pending reissue application. Accordingly, the present reissue application is necessary to cover subject matter which is considered non-elected in the pending reissue application. Further reissue applications are being filed simultaneously herewith, directed to different inventive groups. A reference to the further reissue applications will be added to the specification upon receipt of the serial numbers, pursuant to 37 CFR 1.177(a).

204020-067300T

The present reissue application is restricted to the group in which $X=N-R^2$. The claims have been amended as shown in the attached copy of the patent. The amendments are as follows:

Claims 1, 2 and 9 are amended, and claim 6 is canceled, to delete subject matter which does not relate to the situation in which $X=N-R^2$.

As set forth in the copy of the reissue declaration from 08/254,202, an error in the original patent was found in claim 9 in that some species in which A=propylene were outside the definition of claim 1; from which claim 9 ultimately depends. This divisional reissue application overcomes this error by deleting those species from claim 9.

As to the required tender of offer of original patent, it is noted that there are now 5 pending reissue applications for the same patent. Therefore, the original patent can only be surrendered one time.

It is respectfully requested that an interference be declared between the present application and U.S. Patent No. 4,948,798 to Gsell. Applicants note that claim 3 of the present application and claim 9 of the Gsell patent claim the same invention. It is further respectfully pointed out that applicants should be designated as senior party in the interference, since applicants can show an earlier presumptive date of invention, based on a priority date of March 7, 1986. Gsell's earliest presumptive date of invention is the date of priority, namely August 4, 1987.

Whereby, favorable consideration is earnestly solicited.

Respectfully submitted,

NORRIS McLAUGHLIN & MARCUS, P.A.
